

MANAGED SERVICE

Business Continuity and Disaster Recovery

A crisis management approach personalized for business that aligns with industry best practices and relevant regulations, giving you peace of mind that your business is in good hands.

We begin by thoroughly analyzing your organization to identify the critical processes and dependencies.

Tehama's BCDR service is designed to ensure that your operations continue seamlessly, minimizing business impact and reputational damage. Our team of experts handles the planning and implementation, freeing your organization to focus on achieving its strategic business objectives.

1 Planning and Designing

Business Impact Analysis (BIA)

Our experts will analyze your organization to prioritize business continuity and recovery strategies based on potential disruptions.

Business Continuity Plans (BCPs)

We create customized BCPs based on BIA analysis to manage disruptions and prepare your company for any crisis.

Compliance and Regulatory Alignment

We ensure compliance with industry regulations and provide documentation for audits and assessments.

2 Activation

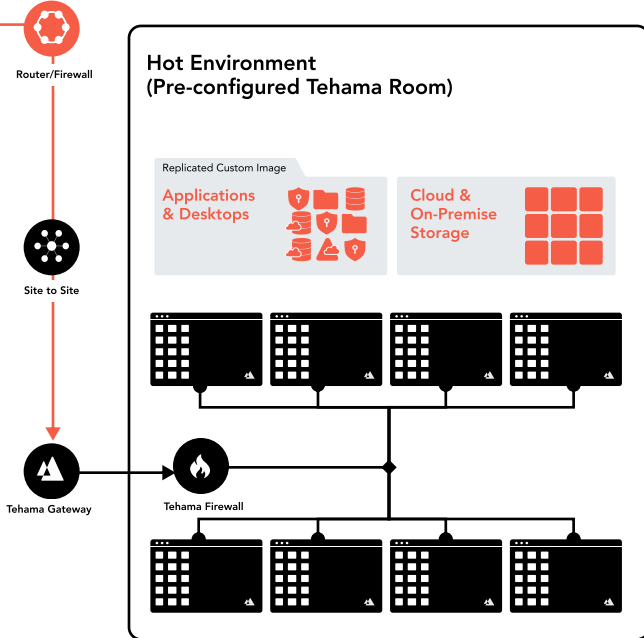

Cold Environment (On-Premise / Public Cloud / Hybrid)

Emergency Response and Incident Management

Our team will activate your BCPs and coordinate recovery and communication efforts during disruptions.

3 Event

4 RTO Achievement

Data Protection and Recovery

Your data is safe with us. We use backups, redundant storage, and recovery protocols to ensure accessibility and recoverability.

5 Postmortem & Ongoing Ops

24/7 Monitoring and Support

Our team of experts offers 24/7 system and network monitoring. Early detection and response minimizes downtime.

Continuous Risk Assessment

Our proactive and routine risk assessments ensure your BCPs are effective, relevant to your business and up-to-date.

Employee Training and Awareness

We provide training and awareness programs to help your employees respond effectively during crisis, building strong business continuity.

Why Tehama?

Leveraging Tehama's Cybersecurity Platform, we provide enterprise-quality BCDR, delivered as a managed service, to ensure seamless business continuity and safeguard your operations, data, and assets, at a fraction of the cost.
